PROFILE

3rd-year IT undergraduate at SLIIT with a strong interest in Full-Stack Development. Proficient in the MERN stack, JavaScript, SQL, API development and responsive UI design. Skilled in applying core OOP concepts such as encapsulation, inheritance, polymorphism and abstraction in real-world projects. Experienced in building applications using React, Node.js, Express and MongoDB. Enthusiastic about learning scalable architectures, backend optimization and cloud deployment while continuously exploring modern web technologies.

DEVELOPMENT PROJECTS

■ Sketch Factory Online (2025/07 - 2025/10)

IoT-Integrated Garment Factory Management System
(Full Web Application)

Sketch Factory Online is a MERN-based garment factory system with IoT-enabled attendance tracking. It automates key operations across HR, finance, inventory and production.

I was responsible for the **Finance Management** Module, including IoT-based salary automation, inventory cost handling, and financial report generation. The project followed Agile-Scrum practices with API and manual testing to ensure reliability.

Role: Finance Management – Full Stack Developer

Technologies: React, NodeJS, ExpressJS, MongoDB

🔗 <https://github.com/SketchFactoryOnlineProject>

■ NutriCart (2025/07 - 2025/10)

Online Seeds Store Application (Android – Kotlin)

NutriCart is a simple and user-friendly Android application for browsing and purchasing plant seeds online. Built using Kotlin and Android Studio, the app provides smooth UI interactions, product listing views, and a clean navigation flow to enhance the user shopping experience.

Role: Android Developer

Technologies: Kotlin, Android Studio, XML

EDUCATION

■ B.Sc (Hon's) in Information Technology Specialized in Information Technology

SLIIT 2023 - present

■ G.C.E Advanced Level Physical Science Stream

G/ST. Aloysius College, Galle 2021
1B,1C,1S

■ G.C.E Ordinary Level

Shariputhra National College,
Galle 2017

TECHNICAL SKILLS

Programming languages:

- C
- C++
- Java
- JavaScript
- Python
- R

Frontend Development:

- React
- CSS/Tailwind css
- HTML

Backend Development:

- PHP
- ExpressJS

Database:

- MongoDB
- MSSQL
- MySQL

Test Automation:

- Selenium

API Testing:

- Postman

OTHER PROJECTS

■ HealthyVibe (2025/07 - 2025/10)

Habit Tracker App (Android – Kotlin)

HealthyVibe is a simple habit-tracking app that stores user habits and daily progress using SharedPreferences. Designed with a clean and intuitive UI for adding and tracking routines.

Technologies: Kotlin, Android Studio, SharedPreferences

🔗 <https://github.com/Udeep10-dev/HealthyVibe>

■ CreatorHub (2025/02 - 2025/07)

Online Video Browsing System (Java – MVC Architecture)

CreatorHub is a web application similar to YouTube, developed using Java with MVC architecture in Eclipse. The system allows users to browse, upload and watch videos with structured layers for controllers, services, and data handling.

Technologies: Java, JSP/Servlet, MVC, Eclipse, MySQL Apache Tomcat

🔗 <https://github.com/Udeep10-dev/CreatorHub---Video-Browsing-System->

■ AutoHub (2024/07 - 2024/11)

Vehicle Advertising Website (HTML, CSS, JavaScript, PHP)

AutoHub is a dynamic vehicle advertising website where users can post, browse, and manage vehicle listings. Developed using HTML, CSS, JavaScript, and PHP to handle both frontend presentation and backend functionality.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

🔗 <https://github.com/Udeep10-dev/AutoHub---Vehicle-Advertising-Website>

COURSES

- AWS Artificial Intelligence Practitioner Learning Plan **ongoing**

Project Management Tools:

- Jira
- Trello

Version Controlling:

- GitHub

UI/UX Design:

- Figma

IDEs:

- VS code
- IntelliJ Idea
- Eclipse
- Android Studio

Others:

- R Studio

SOFT SKILLS

- Effective Communication
- Flexible, friendly teamwork
- Problem-solving
- Designing solutions
- Leadership
- High Dedication & Work Ethic

INTERESTS

- Volunteering
- Learning New Skills
- Travelling & Sports
